# SKIN PREPARATION

## Exfoliation

Get healthy, youthful, luminous looking skin.

### Peel Pads Radiance & Texture

#### — Triple performance

- Exfoliant with AHA Complex and fruit enzymes
- Improves skin brightness in seconds and rejuvenates skin's appearance

### Satinage® Gentle Scrub

- A mechanical exfoliant
- Leaves skin silky and re-texturized

### DermaZyme Enzymatic Exfoliant PHASE 1 & PHASE 2

- Gentle enough for sensitive skin or those with redness
- Eliminates dead cells
- Smooths texture and reactivates radiance
- **Step 1:** The power of the enzyme activates on contact with the skin to exfoliate the skin to perfection.
- **Step 2:** The effervescent texture stimulates exchanges and energizes the skin. An extract of Moringa oleifera eliminates all traces of pollution.
- **Step 1 and Step 2** are designed to be used together and should not be used separately.

# SUN PROTECTION, AND CORAL-REEF FRIENDLY!

**A better tan, without burning or ageing prematurely.** Even in small doses, UV rays cause a lot of damage to the skin by increasing the release of free radicals, which are harmful to our cells. An even greater concern is the fact that sunburns damage DNA molecules - accelerating premature ageing, the appearance of wrinkles, loss of firmness, dark spots and increasing the risk of developing skin cancer.

Every year, 25,000 tons of chemical active ingredients from sunscreens are dumped into the oceans and damage coral reefs, hence the importance of choosing products with limited impact on the environment. It's time to act! LDR has understood and is proud to offer you its brand new **Cell'Defense coral-reef friendly** product line as of December 2020.
